Eco-Friendly Scattering Tubes™

Scattering Tubes are designed and engineered to simplify the scattering process. They are durable, dignified and simple to use. Each Tube features a convenient removable lid and an industry-first, perforated “push in” tab that opens easily prior to scattering. They are available in an Adult and matching Mini size (for those families that wish to split the remains and scatter in more than one location). Tubes contain no metal or plastic components and can be recycled after use.
