RUBIN-X No. 2		JAUNDIAL								
		JAUNDESTONE								
SAN VEINO			TRITON	STOP	SATUROL					

- Epic Drainage = lower color saturation, extra surfactant plus calcium sequestering agent
- Calsec = higher color saturation. Both Epic Drainage and Calsec break blood clots and can be used as a co-injection fluid.
- Rubin-X No. 1 & No. 2 are a very good jaundice combination, they really work!
